

Statement of Quality Policy

The overall objective of the Directors of PRECREATE SECURITY SOLUTIONS LIMITED is to ensure that clients receive a quality of service which gives them no cause for complaint, thereby making us the natural first choice for potential as well as existing clients. In order to achieve this we are committed to providing a service which meets not only the specified requirements of each of our clients but also their implied expectations.

Our commitment to every client is to provide a truly outstanding level of service and we are confident that in doing so we enhance the security of their personnel, property and premises thereby adding value to their business.

In order to ensure that we continue to meet these goals we have implemented, and we maintain, a documented Quality Management System, of which this Statement is the cornerstone, which meets not only the requirements of BS.EN.ISO 9001:2000 but also those of a range of British Standards specifying Codes of Practice for the conduct of various manned security activities. We are committed to compliance with the requirements of our Quality Management System, which includes measures that have been devised to ensure a continual improvement in the quality of the service provided to our clients. In order to ensure the continued effectiveness of our Quality Management System it is reviewed at defined intervals and in accordance with a documented Procedure. During each review of our Quality Management System we establish quantifiable quality objectives so that by gathering and analysing data relevant to those objectives we are able to demonstrate the extent of the improvement in our service.

We retain the services of a highly qualified and experienced Quality Management Consultant and have appointed him as our Management Representative fulfilling the role of Quality Manager. He was responsible for devising and implementing our Quality Management System and irrespective of his other duties he is responsible for its maintenance, improvement and development. He is also responsible for ensuring that it remains relevant not only to our operation and objectives but also to the needs and expectations of our clients.

**Christian Bathews,
Managing Director.
